The reply filed on 08-31-2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): as outlined previously, claims 7,8,10,15-21 and 27 all claim tools which are not disclosed or shown in the figures as being in "arrays". These claims all depend from claim 1, which calls for the tools to be in an array. Therefore, the objection to the specification and drawings has not been addressed or overcome. The applicant has not provided any arguments as to how the proposed changes to the drawings would cure the objections. The examiner contends that none of the claims listed above can properly depend from claim 1. Virtually any amendment to the drawings and the specification to provide support for these claims would constitute new matter. The material contained in these claims is novel and unobvious; however, it would appear as if the applicant has no support for these limitations. Clarification and correction is required. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
